

Rain Canopy

Offering extra protection for very heavy wind and rain, the Rain Canopy is a secondary rain fly that zips onto the main entrance and offers additional cover over the ladder.

Please follow these instructions for an optimal installation.

- **STEP 1:** Locate the zipper insertion pin on Rain Canopy and insert into zipper head of rainfly.
- **STEP 2:** Zip on fully.
- **STEP 3:** Stake down provided guy ropes and adjust to make canopy taut.
- **You're done!**

IMPORTANT: Overtightening guy ropes can cause tear or zipper damage.
