

Annex

Add more living space to your iKamper roof top tent so you can really spread out! 100% waterproof construction and mosquito netting on all doors makes it perfect for picnics in the heat and rain.

Included: 2 poles, 12 stakes, 2 guy ropes, 2 rope adjusters, 1 storage bag

Please follow these instructions for an optimal installation.

- **STEP 1:** Unfold the Annex Room and locate the opening with a zipper.
- **STEP 2:** Zip opening into the entrance of the RTT.
- **STEP 3:** Attach the velcro on each side of the extension panel.
- **STEP 4:** Adjust pole height to the bottom of your RTT or extension panel.
- **STEP 5:** Insert the poles into the receivers from the inside.
- **STEP 6:** Stake down both front guy ropes aligning the top of annex with the side of your RTT. Tighten guy ropes by sliding auto lock towards the Annex (being careful to not over tighten one side)
- **STEP 7:** Attach the divider wall with 4 velcro straps to accessory rails, attach one at each end of the rail.
- **STEP 8:** Stake down each side of the divider wall on both sides.
- **STEP 9:** Stake down front corners.
- **STEP 10:** Stake down the remaining loops starting from back and moving to front.
- **STEP 11:** Give it a once over, adjusting pull tabs to make the Annex Room taut.
- **You're done!** And ready to enjoy an extra room!

IMPORTANT: Please do not move the vehicle while the Annex Room is attached. This could result in tearing of the product or vehicle damage.
